SKILLS

Networking
Cisco, UniFi, VLANs, PoE switches, fiber optics (SFP, multimode / single-mode)

Monitoring
PRTG, UniFi controller, incident troubleshooting

Security
nftables firewall, DMZ / LAN segmentation, LDAP, PKI, HAProxy

Systems
Linux, Proxmox virtualization

Programming
Python, JavaScript, web technologies

LANGUAGES

French — native

English — B2-C1 (advanced)

SOFT SKILLS

Rigor, perseverance, teamwork, problem solving, responsiveness

INTERESTS

Strength training, calisthenics, video games, CTF challenges

Noé Coëffic

Apprentice — Bachelor in Networks & Telecoms, Cybersecurity track

Third-year student in the Bachelor of Technology in Networks & Telecommunications (BUT R&T, Cybersecurity track) at IUT de Colmar, France, working as an apprentice (work-study) at Mulhouse Alsace Agglomération (m2A) since September 2026. Interested in network administration, monitoring and information system security.

EXPERIENCE

Apprentice — Networks & Telecoms, Cybersecurity track

Mulhouse Alsace Agglomération (m2A) · since September 2026 · apprenticeship contract

- Operation and maintenance of the network across the agglomeration's sites (schools, public buildings).
- Monitoring and incident troubleshooting with UniFi and PRTG, e.g. fiber / SFP link losses and root-cause analysis.
- Contribution to network equipment renewal projects (switches, fiber links).

Network technician — 2nd-year internship

Mulhouse Alsace Agglomération (m2A) · IT department · 2 months

- Replaced Cisco switches in about 18 schools: preparation, configuration and on-site commissioning.
- Deployed UniFi Pro PoE switches at public sites across the agglomeration.
- Migrated multimode fiber links to single-mode fiber.
- Monitored the network infrastructure with PRTG and the UniFi controller.

Work-experience placement (middle school)

Marine drone company · 2019 · 1 week

- Discovered the professional world and real-world uses of technology.

EDUCATION

Bachelor of Technology (BUT) in Networks & Telecommunications — Cybersecurity

IUT de Colmar, Université de Haute-Alsace · 2023 – 2027

Final year as a work-study apprentice. Network administration, information system security and monitoring.

French Baccalaureate (general)

Lycée Léonce Vieljeux, La Rochelle · 2023

Majors: Computer Science (NSI) and English Language & Literature.

PROJECTS

Securing an information system (SAÉ 4.Cyber.01)

Virtualized enterprise network on Proxmox: DMZ / LAN segmentation, nftables firewall, LDAP directory combined with a PKI, high availability with HAProxy.

CTF challenges — RootMe

Regular practice of web, network and cryptography security challenges.
